**3M™ Protemp™ Plus Temporization Material**

Protemp Plus is a composite material used for temporary (provisional) crowns, bridges, veneers, inlays and onlays. It is also indicated for long-term temporization. Protemp Plus represents expertise in nanotechnology being the first available bis-acrylic composite combined with a new generation of fillers.

- Excellent fracture resistance and toughness
- Quick intraoral set
- Total set time of only 5 minutes
- Smooth, glossy surface requires no polishing or glaze
